

PUBLIC NOTICE OF AVAILABILITY

The Natural Resources Conservation Service (NRCS), with the Utah Department of Agriculture and Food (UDAF), announces the availability of a Final Environmental Impact Statement (EIS) describing the proposed rehabilitation of the Green River/Tusher Diversion in Green River, Utah. The project is being funded by the Emergency Watershed Protection Program (EWP) and the Final EIS has been prepared in compliance with the National Environmental Policy Act (NEPA) per 40 CFR Parts 1500-1508.

The Final EIS is available for review from **June 20 - July 19, 2014**.

Hard copies of the Final EIS are available for public review at:

NRCS Price Field Office - 540 W Price River Drive, Price

Grand County Public Library - 257 E Center St, Moab

Green River City Hall - 460 E Main St, Green River

John Wesley Powell River History Museum - 1765 E Main St, Green River

An electronic copy of the Final EIS may be obtained from the NRCS Utah website at <http://www.nrcs.usda.gov/wps/portal/nrcs/main/ut/programs/planning/ewpp> or by searching for "NRCS Utah EWP" and selecting the Green River/Tusher Diversion Rehabilitation link.

For additional information related to this notice, please contact David Brown, NRCS Utah State Conservationist:
